# SAKSHAM GARG

Frontend Developer | React.js | Next.js | TypeScript

Sirhind, Punjab | +91 6284480041 | saksham23garg@gmail.com | LinkedIn

## PROFESSIONAL SUMMARY

Frontend-focused web developer with professional experience delivering React interfaces, REST API integrations and custom JavaScript-driven e-commerce workflows. Built independent Next.js applications using TypeScript, PostgreSQL and Supabase, including authenticated dashboards, role-based access and developer tools.

## TECHNICAL SKILLS

| | |
|---|---|
| **Frontend:** | JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS |
| **Backend & data:** | Node.js, REST APIs, SQL, PostgreSQL, Supabase, Firebase |
| **Commerce & CMS:** | Shopify, Liquid, theme sections, Draft Orders, WordPress, Elementor |
| **Product foundations:** | Authentication, role-based access, Row-Level Security, protected routes, input validation |
| **Tools & delivery:** | Git, GitHub, Postman, Vercel, responsive UI, accessibility, performance optimization |
| **Familiar with:** | Express.js, MongoDB |

## PROFESSIONAL EXPERIENCE

**Netgains | Junior Web Developer** **Jun 2025 - Aug 2026**

- Developed and customized Shopify storefronts for B2C and wholesale use, improving storefront usability and customer experience.
- Integrated third-party apps and built a Shopify Draft Order payment workflow for Zioncases, supporting 40% upfront and 60% post-delivery payments.
- Implemented Liquid theme sections and JavaScript storefront functionality; resolved issues on live stores.

**Netgains | Web Developer Intern** **Jan 2025 - Jun 2025**

- Built responsive, mobile-first HTML, CSS and JavaScript interfaces for WordPress websites; tested cross-browser behavior and improved page load performance.
- Delivered a healthcare website using WordPress and Elementor, including theme setup, plugin integrations and accessible layouts.

## SELECTED PROJECTS

**QR Menu & Restaurant Management Platform** Next.js, React, TypeScript, Tailwind CSS, Supabase

- Built QR menu and ordering flows with restaurant administration for menus, inventory, employees and customer feedback.
- Implemented Next.js API routes, Supabase authentication, PostgreSQL storage and image uploads; applied restaurant-level data separation with Row-Level Security, protected routes, validation and rate limiting.

**DummyDetails** Next.js, JavaScript dummydetails.com

- Created locale-aware synthetic address and identity generation for 72 countries, with bulk output and postal and phone formatting.
- Added JSON, CSV, TXT and SQL export, plus 20+ browser utilities for UUIDs, hashing, QR codes, formatting and encoding; the public platform attracts approximately 100 monthly users.

## EDUCATION

**Chitkara University** B.E. Computer Science & Engineering | CGPA: 8.7 2021 - 2025

**Sri Guru Gobind Singh Senior Secondary School** Class XII | 80% 2021
